NAVSUP Publication P-724 prescribes policies and procedures for Navy and Marine Corps conventional ordnance distribution and stockpile management. The basic publication represented the consolidation of several Navy ordnance policies and procedures. This change incorporates the following:

- Periodic Lot Reporting (PLR) Reporting Message Generation Procedures
- OAP Readiness Definitions Based on NORIP Guidance
- Control Number Configuration Management Procedures
- TAIMS/CAIMS Reporting Relationships
- Revises Ship Offload Planning Procedures
- Procedures for Improved Compliance with Unique SPECWAR Asset Requisitioning
- Description and Capabilities of the NALC Mobile Fleet Support Team (MFST)
- VLIP Access Procedures as Tool for Requisitioners
- Updated List of Authorized Requisitioners and Receivers
- Defines BGC issue reporting for FFT (For Further Transfer) Transactions

NAVSUP Pub 724 is applicable to all Navy/Marine Corps activities and personnel involved in the management of the Department of the Navy explosive ordnance material with supply cognizance 2D, 2E, 2T, 4T, 6T, 8E, 8S, 8T and 8U, under the cognizance of Navy and Marine Corps Acquisition/Program Managers. NAVSUP Pub 724 additionally describes ammunition reporting, accounting and management practices for Marine Corps OT Cog assets stored at Navy activities and ships.
